

## UAV Opinion Poll

Welcome to our anonymous survey. We are conducting this public opinion poll as part of our class at California State University Channel Islands.

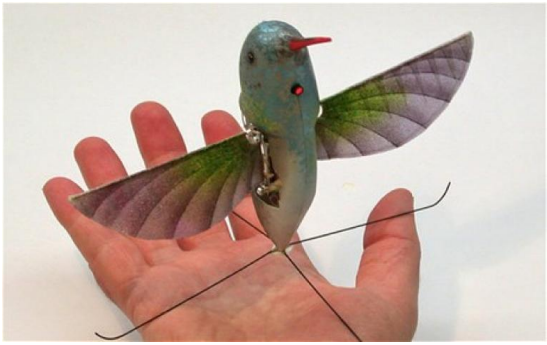

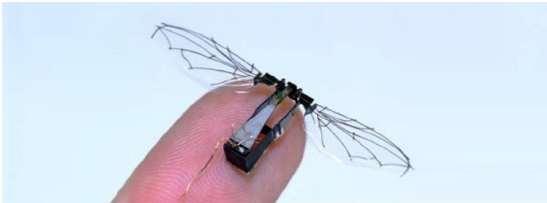

Thank you for consenting to participate by completing this brief questionnaire. The survey takes approximately 9 minutes to finish. It will be used to gauge current use of and attitudes towards Unmanned Aerial Vehicles. These devices are variously also known as UAV, Unmanned Aerial Systems (UAS), Remotely Piloted Systems (RPS), or simply “drones.” While the military use of these systems may often be what people think of when they hear about this technology, we are exploring the rapidly-expanding, non-military use of systems created by hobbyists, researchers, and private industry.

Our results will be posted on our blog (<https://aarr.piratelab.org>) by late spring. If you have any questions or are interested in our results, please contact our professor Dr. Sean Anderson ([Sean.Anderson@csuci.edu](mailto:Sean.Anderson@csuci.edu)). Thank you again!

1. In which country do you reside? \_\_\_\_\_
